As we went through each goal and broke it down into smaller segments, overall organizational committees were identified as being needed. Based on the strengths identified during the morning, it was fairly easy to match the committees with people who were well suited and willing to help facilitate or chair that committee. The committee chair is not expected to do all the work for that committee. The chair's job is to identify the goals for the committee, facilitate to work, recruit volunteers and work closely with other committee chairs to help achieve the overall basic goals of the association.

The board members and committee chairs are listed below. It should be noted that, as the

president of the association, Laurel Lemke is a member of each committee.
